LUXOTIC™ ORGANIC FACE MOISTURIZER

The Most Powerful Results-Oriented Daily Face Cream Ever Developed

Luxotic™ gives you incredible results without having to spend time and money on weeks of treatment at a spa! Its value as the world's most luxurious and effective organic face cream comes from the superior quality of ingredients, the unique craftsmanship involved in hand-making each product, and the transformational benefits it delivers over time.

WHY IT WORKS

We've created a technology to refine the essence of the most bio-available fulvic acid mineral complex ever discovered, then combined this with a suite of support and delivery systems wild-crafted from raw, natural ingredients. The result is a moisturizer that will not only feed your skin, but through your skin will feed your entire body!

HOW IT WORKS

We take 5 pounds of the same rare clay we use in our Clay Mineral Mask – never before available in a beauty or cosmetic product – and meticulously extract and refine over 80 rare minerals into a 1.7 ounce cream, including gold (which establishes cellular connections) and platinum (the ultimate antioxidant). Luxotic™ is the **ONLY** moisturizing cream on the planet that uses **BIO-AVAILABLE** gold and platinum!

We then further align the potency of available minerals with electric and magnetic alignment techniques proprietary to our company. The resulting mineral complex is hybridized with powerful extracts of kigelia, frankincense, aloe, MSM, beeswax, and free saturated fatty acid LMT's taken from coconut oil and lecithin.

THE RESULTS

Luxotic™ will unmistakably improve the visible vibrancy, softness and integrity of your skin over time.

DAILY INFUSION™ FACELIFT CREAM (WITH FLAVONOL™)

The Highest-Performing Organic Facelift Cream for Instant Results and Progressive Anti-Aging

Say goodbye to wrinkles the all-natural way! Daily Infusion™ Facelift Cream delivers the most profound tightening, anti-aging results you can achieve without going to a plastic surgeon or spending a fortune at a Med Spa. Results are immediate, and cumulative over time.

This non-chemical, non-damaging, non-abrasive facelift cream is the **FASTEST, MOST EFFECTIVE** natural way to slow the signs of aging and enhance the overall health and appearance of your skin. Results are immediate and dramatic, but the long-term process is the key to Daily Infusion's™ anti-aging magic.

WHY IT WORKS

The most important ingredient in Daily Infusion™ is Flavonol™, our very own bio-extracted, citrus flavinoid-peptide complex derived from organic food sources. Our proprietary liposome technology allows our active, whole-food ingredients to be broken down molecularly, so small that they can actually penetrate the dermal layer and go to work on a cellular level, below the surface to rebuild elastin strands and encourage collagen production.

HOW IT WORKS

Daily Infusion™ represents the current pinnacle of success of our decades-long quest to develop original technologies built on ingredient synergies from the natural world. Unlike any other facelift cream, Daily Infusion™ delivers results by restoring the innate vitality present in our body's own blueprint to build healthy, beautiful skin.

THE RESULTS

With regular use over time, your skin will tighten, rebuild what's been breaking down and look younger, healthier and more vibrant. Try it today... you'll be simply amazed!

BAMBOO MIST™

Tones, Firms, Brightens, Hydrates and Nourishes the Surface of Your Skin!

Our sensational Bamboo Mist™ product is one you absolutely can't live without. Use it any time of day, as many times a day, to tone and firm your skin, restore and brighten skin tone, and leave your skin fully hydrated and nourished!

EXHILAR-EYES™ EYE RENEWAL CREAM (WITH FLAVONOL™)

The Results Around Your Eyes Are Spectacular!

Make dark circles, bags under eyes and eye wrinkles disappear, the all-natural organic way! Get back those beautiful eyes with Exhilar-Eyes™ Eye Renewal Cream (with Flavonol™).

WHY IT WORKS

Flavonol™ creates the best eye cream ever made and is 100% natural with no synthetic elements, and no chemicals used in the extraction.

HOW IT WORKS

Our Flavonol™ is the most collagen-enhancing all-natural active ingredient ever developed. It is based on our own bio-elemental technology that breaks down whole organic food sources (citrus and vegetable) into molecular components a thousand times smaller than the human cells found around the eye. The Flavonol™ molecular matrix contains over 2,000 flavonoids along with amino acids, enzymes, and mRNA nucleotides to stimulate greater production of collagen and elastin fibers.

Our base citrus and vegetable extraction is enhanced by weaving in our proprietary fulvic acid mineral clay extract into fucoidan, derived from brown seaweed.

THE RESULTS

Positive results are immediate and increase over time. Exhilar-Eyes™ literally lifts and tones the skin around the eyes while lightening dark circles and smoothing fine lines. This exclusive, innovative product nourishes the eyes' surrounding skin so thoroughly, you may actually find your eye health and eyesight strengthened (we've heard this repeatedly!).

CLAY CLEANSING BAR

*An Organic Moisturizing Bar that Naturally
Deodorizes, Nourishes and Exfoliates*

Our organic Clay Cleansing Bar is way beyond a mere bar of soap. It has been ranked by estheticians as the **HIGHEST QUALITY CLEANSER IN THE WORLD** for both the face and body. Not only does Clay Cleansing Bar cleanse, moisturize, deodorize and exfoliate the skin; it also makes a great shaving cream and shampoo!

WHY IT WORKS

First, our outrageously effective and proprietary montmorillorite clay naturally exfoliates, absorbs odor and deodorizes your skin. Then, our proprietary herbal and other natural ingredients work with the clay to leave just the right amount of saponified oils and natural glycerin in the skin to allow it to moisturize from within, rather than coating you with an artificial alternative.

HOW IT WORKS

We take the same rare ingredients in our Clay Mineral Mask and blend it with organic soap ingredients, including organic olive, coconut and castor oils, along with vitamin E, jojoba and a proprietary herbal formula for extra moisturizing benefits. Each bar is scented with pure essential oils and made with organic or wild-crafted ingredients...exactly the way nature intended.

THE RESULTS

Our superior Clay Cleansing Bar will deep clean and nourish your skin beyond any other bar you've ever tried. Your skin will feel healthy and look vibrant. The bar's natural exfoliating properties leave the skin ready to receive the beneficial effects of every other product in the Relevé™ Skincare line. For problem skin, the health benefits of this bar provide the ultimate nutritional support to improve acne, rosacea, eczema and rashes.

ORGANIC BODY LOTION

*Luxurious Organic Body Lotion for Clear,
Beautiful, Non-Greasy Skin*

Our Organic Body Lotion is the epitome of a full-body skin quencher and beautifier. It gives you luxurious, high-quality skincare without pumping your body full of harmful chemicals – or any chemicals for that matter! We make our lotion from the finest natural, organic, wild-crafted plant and vegetable-derived extracts on the planet. Use it regularly, and your skin will stay soft and moist all day!

WHY IT WORKS

Our Aloe Vera is grown and processed on a parcel of land that's been growing organic plants since the early 1970s. The soil is so vibrant that the Aloe leaves are massive in size. To get the full benefit of the plant, we hand-cut the leaves and scrape along the inner leaf to capture the full range of nutrients and enzymes. Other skincare companies process Aloe leaves in large crushers, which significantly impairs the plant's healing and medicinal properties. And unlike other companies, we don't add water. What goes into your skin is the highest-quality, purest Aloe available in any product!

HOW IT WORKS

Organic, hand-filleted Aloe Vera is one of our main ingredients. The Aloe plant is known not only for its soothing properties, but for its healing and anti-irritation abilities. Plus, natural extracts with antioxidant functions provide extra protection from harmful UVB rays. Finally, we add organic beeswax, raw honey, grape seed oil, and a proprietary herbal extract to create a truly fabulous all-purpose body lotion that is mild enough for your face.

THE RESULTS

From an all-natural, non-greasy lotion, your skin gets moisturized, protected, healed and renewed – everything you would expect from a top-quality body lotion. This product is suitable for all skin types, and for even the most problematic skin.

It contains 100% natural mineral pigments for broad spectrum UVA, UVB and UVC coverage, plus offers exceptional moisturizing benefits because we use generous amounts of 100% organic hand-filleted Aloe Vera that no other sunscreens come close to.
